Research Experience

Research Intern Aug 2025 – Dec 2025
Max Planck Institute for Informatics

- Co-led a survey on non-rigid 3D shape correspondence; covered foundation-model-based methods (Eurographics 2026).

Master's Thesis Apr 2024 – Apr 2025
University of Bonn

- Developed a diffusion model for correspondence estimation between deformable 3D shapes; trained on 300k synthetic human and animal shapes (CVPR 2025).
